The Seventh Annual Troth Yeddha' Run for the Park will start at noon Saturday, Sept. 8. The 5K race raises awareness about Troth Yeddha' Park at the University of Alaska Fairbanks and celebrates Alaska Native history, culture and traditions.

The race will start at the park, located between the UA Museum of the North and the Reichardt Building on the Fairbanks campus.

For generations, Alaska Natives gathered at Troth Yeddha' — the hill on which the Fairbanks campus sits — to share traditional knowledge and harvest the wild potatoes that grew nearby. The name, from an Athabascan dialect, means “wild potato ridge.”

“The Race for the Park helps us make strides for the Troth Yeddha' legacy as we carry on a similar traditional use of the hill, a place for positive thought and working together,” said Sandra Kowalski, UAF's director of indigenous programs.

The UAF College of Rural and Community Development and Running Club North host the event.

Registration is \$25. All proceeds will be donated to the UA Foundation's Troth Yeddha' Park Fund. University students can register for free with UA ID. Registration is available online through Eventbrite or in person from 11-11:30 a.m. at the park on race day.

ADDITIONAL CONTACTS: Izzy Martinez, 474-5860, or Amanda Lash, 474-6417,

This figure is a geological cross-section showing various rock units and structural features. The top section consists of a red layer with green and yellow interbedded layers. Below this is a yellow layer, followed by a green layer with a prominent fault line. The bottom section is a blue and green layer. A legend at the bottom identifies symbols for 'CRN 476791 ED F616 (UX1)', '75055 CCS F616', and 'Dynamic Cross-listed with ED F516'.

EXCITING  
NEW PROJECT

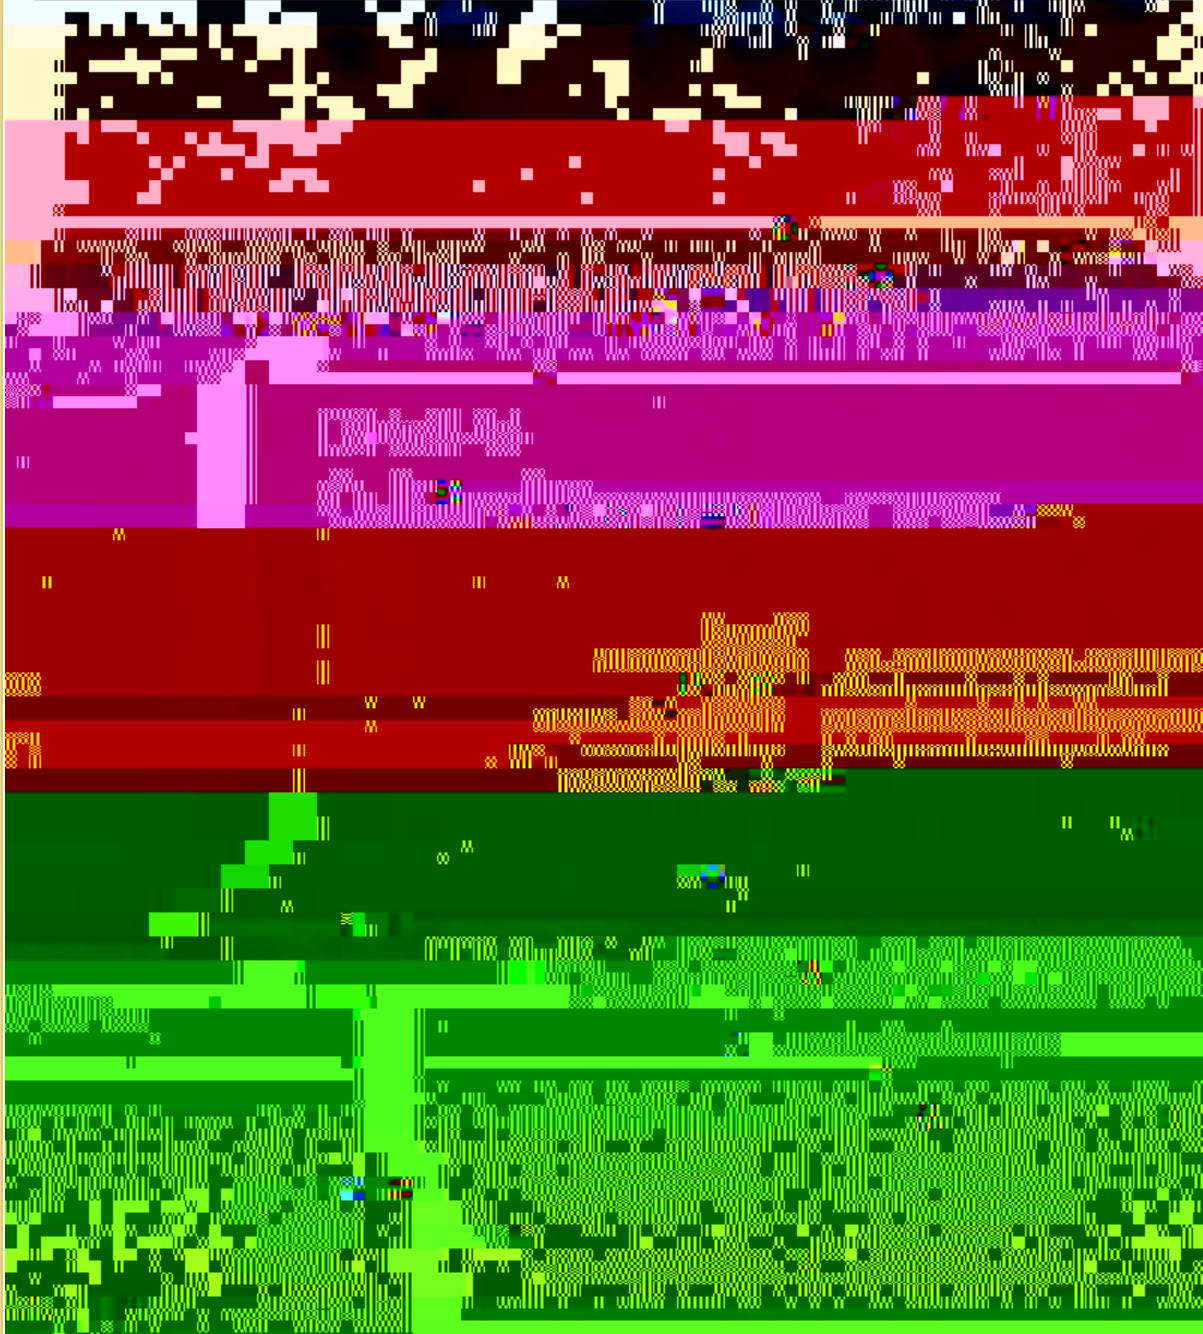

# INDIGENIZING SALMON MANAGEMENT IN ALASKA

The Alaska Department of Fish and Game (ADF&G) is currently seeking a graduate student to work on a project titled "Indigenizing Salmon Management in Alaska." The project aims to explore the integration of traditional Indigenous knowledge and practices with modern scientific methods to improve salmon management and sustainability in Alaska.

Applicants should have a Master's degree in a related field such as Fisheries, Wildlife Management, or Environmental Science. The position is based in Anchorage, Alaska, and is a full-time position for one year.

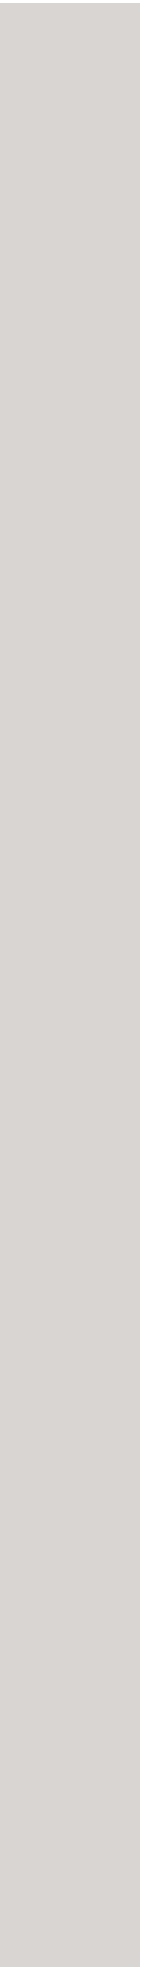

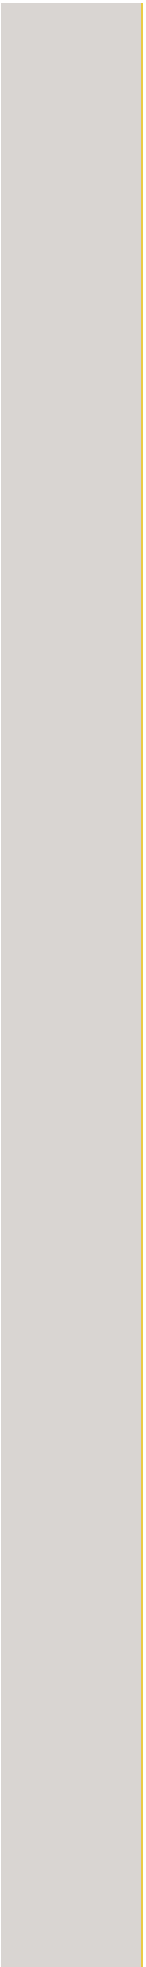

Interested applicants should contact Courtney Carothers or Jessica Blum at [carothers@adfg.alaska.gov](mailto:carothers@adfg.alaska.gov) or [blum@adfg.alaska.gov](mailto:blum@adfg.alaska.gov). The position is funded by the Alaska Department of Fish and Game and the National Science Foundation. The expected start date is fall 2017. The position includes a stipend and benefits. The position is open until filled.

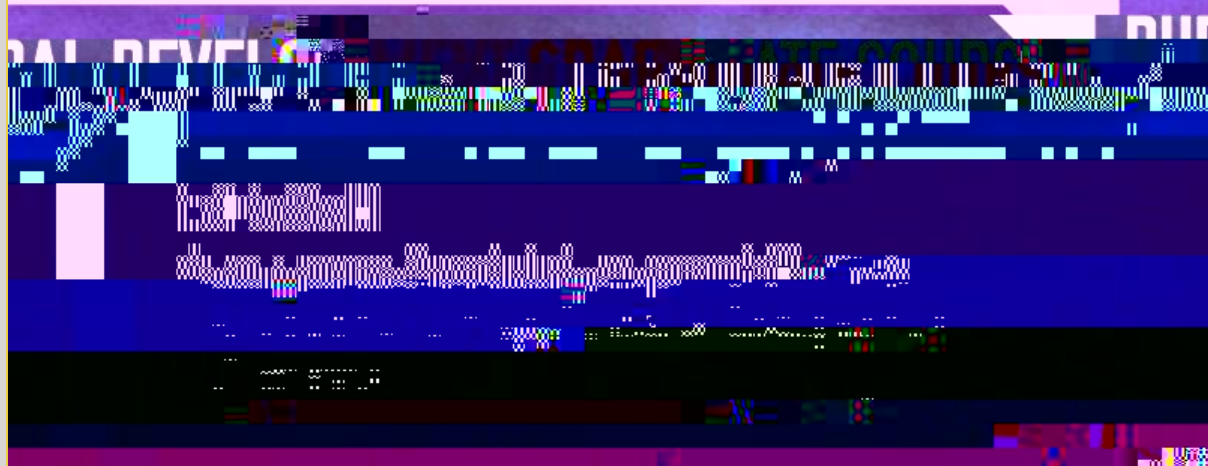

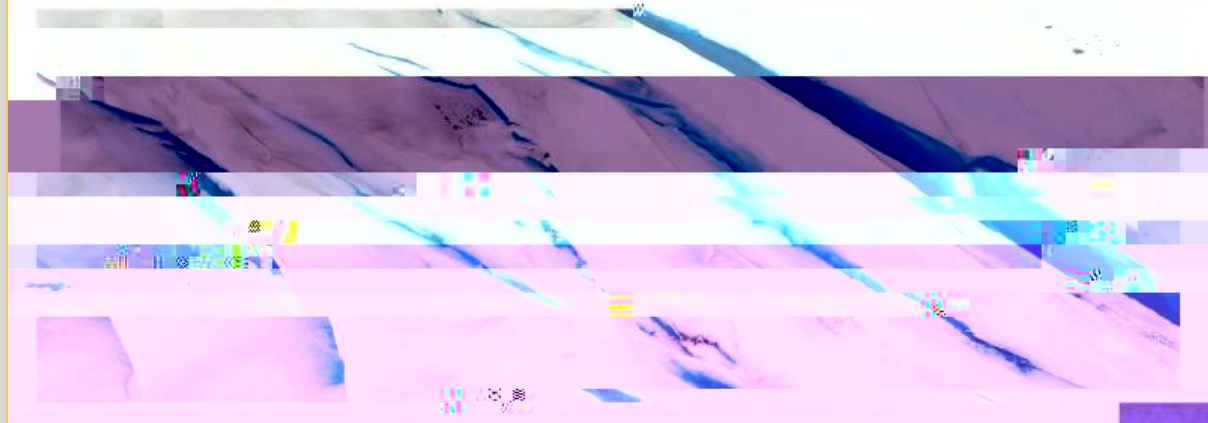

For more information, visit [www.adfg.alaska.gov](http://www.adfg.alaska.gov). The Alaska Department of Fish and Game is an Equal Opportunity Employer. Minorities and women are encouraged to apply.
