Board of Regents Policy 05.10.070
B. In general, student fees should have a direct relationship to the associated service, activity, or course and be assessed on the estimated cost of providing the service or benefit. Use fees should not be based on a long-term basis that the actual cost of the service or activity for which the fee is assessed. Course fees and use and service fees all are charged for the use of facilities, services, and programs beyond those normally covered by tuition at the respective campus. In certain instances, certain administrative fees may be established at amounts unrelated to the cost of the service or activity.

University Regulation 05.10.070

B. # course use service and administrative fees are established if the respective chancellor or designee determines that such fees are reasonable and appropriate. The chancellor will establish a process for a review and continuing or periodic review of student fees. The chancellor will establish a process for assessment of the fee amount of the estimated annual revenue retro used use of receipts from the fee and the retro used effective date of any new or revised fee. The process for continuing reviews shall provide for student comment and input including notice to students of course related fees and their use at the beginning of each semester and inclusion of a request for the level of satisfaction that is evaluated. Fees are part of the student's teaching or course evaluation.

#. # course fees shall be a direct cost of providing the course such as the cost of the materials that cannot be economically purchased by students in amounts required for individual use or for the use of shared instructional materials and other equipment.

@. ° All student fees including student government fees, course fees, use and service fees, and administrative fees shall be published in the course schedules, student and course and registration instructions - all U°Us shall maintain a website that identifies all student fees and discloses for each the amount of the fee, its purpose, basis for calculation or assessment, and an explanation of the use of the proceeds. The academic catalogs shall include an information disclosure of the various fees that are charged to students. # courses listed in the academic catalog that traditionally or normally have an associated course or other fees shall be listed as a fee designator that will direct the reader to the website that contains the date fee information.

K. Fees must be established far enough in advance to be included in the semester course schedule. Voluntary fees or fee increases shall be charged to students for reasons that are beyond the control of the student receiving the fee or fee increase. Issued by the authorized representative of the chancellor. The chancellor is the authority delegated beyond the review of the chancellor.
