Other Schedule I and II		

Residents and guests are expected to follow state laws and University regulations related to alcohol use and possession. With the exception of legal dependents, residents and guests under 21 years of age may not be in the same room or apartment as an open container of alcohol. If a minor is present in an apartment, residents 21 and over can consume alcohol in their individual bedroom with the door closed.

If alcohol is found in residential facilities, it is considered to be in the resident's possession. In all residential areas, any alcoholic beverages possessed in violation of UAF regulations will be confiscated and disposed of by Residence Life staff.

Alcohol must be confined to individual rooms, suites, and apartments. The consumption of alcohol is not permitted in or on public and common areas, including hallways, lounges, lobbies, and porches.

Displays of alcohol or alcohol containers are permitted for residents of legal age, as long as displays are not in public view (able to be viewed by someone outside the room or apartment or through a window). Underage residents or residents of substance-free halls may not display containers that once held alcohol.

The sale of alcoholic beverages to a person by another individual on campus is prohibited.

Use of common sources of alcohol, including but not limited to kegs, party balls, beer pong, trashcans, and punch bowls is prohibited.

In order to transport alcohol into halls residents must live in that particular building, and not be perceptibly under the influence of alcohol.

Neither alcohol possession nor intoxication are not allowed in Eileen Panigeo MacLean House, Nerland Hall, Stevens Hall, or McIntosh Hall, regardless of resident age.

Possession or use of marijuana or any other substance controlled pursuant to 21 U.S.C. 841 et seq. anywhere on university property is prohibited. Violations of this policy will result in disciplinary action, as provided by applicable university regulation, campus procedures, and all applicable laws and regulations.

POLICY STATEMENT

Except as provided herein, no alcohol, marijuana or other intoxicants may be present or consumed during or at the site of UAF-related field activities, including both course or research activities that occur beyond UAF campuses.

The Alcohol and Intoxicants - Field Policy (Policy) statement sets the minimum UAF requirements for restrictions on the possession and use of alcohol in the field. Principal Investigators (PIs), supervisors, deans, directors, vice provosts, and vice chancellors may set more restrictive policies for specific activities.

BACKGROUND AND JUSTIFICATION

UAF faculty, staff, and students participating in field activities represent the university both during and after working hours and should act responsibly. UAF is committed to the health, safety and well-being of all students, university employees, volunteers and community partners. Alcohol consumption can lead to impaired coordination and judgment and can reduce individuals' ability to avoid and defend against a variety of hazards at field locations. In field settings, emergency response to health and safety issues may not be immediately available and field activity participants must be able to respond as needed to address emergent situations.

Participants are expected to behave responsibly, maintaining the ability to respond appropriately to emergent situations irrespective of whether a field course or research activity is under UAF administrative control. This expectation further applies irrespective of whether the field activity has Chancellor (or designee) approval for limited alcohol possession and consumption as an exception to this Policy. Impairment as a result of the ingestion of drugs or alcohol is not permitted during any university-related activities.

[UAF Policy 05.12.001](#)

POLICY STATEMENT

Serving alcohol beverages at events on campus, or at UAF events located off-campus, requires compliance with state laws and sensitivity to the public's perception of our institution. It is the University's desire to

Local Municipal Laws

Applicable local alcohol and drug laws and ordinances are in accordance with state statutes, but may be subject to change with the passage and implementation of possible new laws.

Many municipalities have adopted, by reference, the Alaska state vehicle and traffic laws. This means a violation of a state statute (such as driving with an open container) can result in an additional fines from the municipality.

Many municipalities allow for civil court action against the offending individual for monetary compensation (in addition to any fine) and/or injunctive relief (a court order restricting future activities).
