

Science & Sense of Place: A Naturalist Adventure in the Arctic

This is approximate and will shift depending on weather, researchers' availability, energy levels, and other fun activities happening at Toolik. You will have the flexibility to take time for yourself and immerse yourself in the surroundings if desired.

- Stop at Finger Rock for observational/listening exercise
- Other Points of interest: T'eedriinjik, Koyukuk, Sukakpak, Atigun Pass
- Toolik orientation and welcome / Move-in

- Toolik Boardwalk research sites tour
- "Tuning in" to our surroundings
- Field notes and/or sketching
- Bird watching 101

- Citizen science project
- Half-day hike

- Day hike
- Plant identification and adaptations

- Citizen science project
- Science and research connections
- Rest or hike

- Half-day hike
- Field notes and/or sketching
- Whole systems thinking

- Half-day hike
- Walk around Toolik - What changed? Re-visit first-day observations
- Art-Science talk
- Clean and pack up
